# Transformasi Kayu Bekas Menjadi Karya Seni Berkelas

**FURNITUR** klasik Jawa yang natural, bersahaja, namun berkelas membuat Astriany jatuh hati. Lama berkecimpung dalam industri ini, ia melihat pasar furnitur bergaya tradisional tak pernah surut. Astri pun mendirikan Jawa Classic pada 2014. Dengan karyawan yang sebagian besar penduduk sekitar, Jawa Classic mencipta aneka perabot rumah mulai dari kursi, meja konsol, hingga dekorasi. Istimewanya, semua bahan baku diambil dari kayu bekas, misalnya bongkaran kapal atau rumah. Mata jeli Astri langsung dapat membayangkan bagaimana bilah-bilah kayu itu akan bertransformasi menjadi kriya artistik dan bernilai guna.

---

***SIMPLE**, natural, yet elegant style of Javanese classic furniture has captivated Astriany's heart. Having worked for years in craft industry, Astri realizes that the market of traditional craft keeps on growing. Astri then founded Jawa Classic in 2014. Empowering workers living around the workshop, Jawa Classic create various kinds of furniture spanning from chairs, console table, to home decors. The great thing about their products are the materials they use, which are from reclaimed lumber, such as from old boats or houses. Astri's sharp eyes immediately picture how naturally weathered boards and planks can be turned into artistic and functional crafts.*

Selalu berpikir efisien, Astri tak berdiam diri melihat kayu sisa produksi. Talenta kreatifnya senantiasa menemukan berbagai gagasan untuk mengubah limbah naik kelas. Terciptalah produk kerajinan nan unik, seperti bingkai cermin dan rak botol. Serat dan warna kayu tua ia biarkan apa adanya demi menampilkan keindahan alamnya.

Eksklusif, berkualitas, dan ramah lingkungan menjadikan produk-produk Jawa Classic unggul di pasar lokal maupun global. Konsumen pun berdatangan dari berbagai belahan dunia, terutama benua Eropa.

*Always thinking efficiently, Astri always tries to make something useful out of production wood remains. Her creative mind consistently searches for ideas to level up waste lumber to premium articles. As a result, unique crafts, like mirror frames and bottle racks, are created. The natural colors and grains of seasoned woods are left the way they are so as to present their authentic beauty.*

*Exclusive, premium, and environmentally-friendly, Jawa Classic products are highly reputable in local and global markets. Their customers come from all over the world, mainly European countries.*
